South Korea - Getting colorfully ready for the Olympics 2018

The XXIII Olympic Winter Games will be held from 9 to 25 February 2018 in PyeongChang, Republic of Korea after 30 years from the Seoul Olympic Games of 1988. The 13 selected venues will be spread across two areas. The PyeongChang Mountain Cluster will host the skiing and sliding events, while the Gangneung Coastal Cluster will be home to figure skating, hockey, curling, and short track speed...

France - Holy Lights in Chatillon

Born in the Champagne countryside presumably in 1042, Eudes de Châtillon became the 159th pope under the name of Urban II. Before becoming a Benedictine monk at the Abbey of Cluny, Eudes was first a canon and archdeacon in Reims. He was the promoter of the first crusade towards Jerusalem in 1095, started with the intention to liberate Jerusalem and the Holy Sepulcher from the Saracens, while...

USA - Lights at the U.S. BANK STADIUM

U.S. Bank Stadium, new home to the Minnesota Vikings, opened in time for its first regular season game in September 2016. Inspired by traditional Nordic architecture, the angular geometry of the building and asymmetrically slanted roof are specially designed to shelter supporters from the city's

legendary harsh winter climate. The \$1.1 billion fixed roof stadium in downtown Minneapolis serves...
