### **Finland - All the shades of Kuopio City Hall**

In a year's time when lights take the lion's share of the festive decorations, Kuopio City Hall has just inaugurated its brand new dynamic façade lighting system based on GRIVEN's LED floodlights. Built at the end of the 19th century, this Neo-renaissance building dominates, with its imposing but elegant structure, the central market place of Kuopio, the biggest city and most...

### **New anti-slip treatment on recessed fixtures available now!**

The demand for anti-slip glass treatments on recessed lighting fixtures installed in pedestrian areas has steadily increased over recent years, in order to reduce the safety hazard on public as well as private grounds. On request, our recessed luminaires will offer a dedicated anti-slip treated glass, specifically customized according to the different optics distribution of each model. Recognized...

### A success for GRIVEN first presence at the Professional Lighting Design Convention

This year all the light planning and designing professions came together at the Professional Lighting Design Convention (PLDC), which was held from November, 1 to 4 in Paris. GRIVEN featured for the first time as a Silver Sponsor on a joint stand along with its sister companies WILA, LAMP Lighting and .hess, in order to get in a closer contact with the lighting designers' world. On...

### GRIVEN and HESS: better together

As a further testament to the fast growing cooperation within the NORDEON GROUP sister companies, .hess has recently integrated a wide choice of our architectural lighting solutions in the German product area of its website. The most popular GRIVEN products will, from now on, be closer to the German speaking customers, who will be able to rely upon a complete product literature, technical spreadsheets...
